Make-up Formula

Cosmosglow New Highlighting Powder 100% Natural “Cosmos Approved”

ICC
Italy

Product description

Cosmos Glow is the newest highlighter in the line, being 100% natural. Thanks to the presence of zeolite, contained in the formulation, it is possible to remove traces of any heavy metals and of free radicals which are provoked by blue-rays. Moreover, this key ingredient protects the skin from radiations and is able to renew cells.

Product benefits

100% sustainable.
Helps in getting rid
of toxic substances.

Make-up Formula

Dynamic Duo Water Base Blob Gloss

B. Kolormakeup
& Skincare S.p.A.
Italy

Product description

Simplicity, of all things, is the hardest to be copied. Minimalism as a pivotal concept; it emphasizes the fresh and natural aspect of every beauty consumer. Constantly influenced by the flow of external information and technology, they are striving for simplicity and transparency. Transparency and color have never been so close!

Product benefits

Dynamic Duo is a gloss with an extremely shiny lightness that is tinted with color. By mixing the two phases, the transparency and the intense color, you obtain a natural, tinted and shiny result. The texture glides on the lips, leaving them soft and hydrated, a real natural beauty concentrate. The mix of shiny oils creates an ultra-shiny and wet film, which is soft, comfortable and never sticky. The drops of color, mixed with the transparent part, give the lips a tinted look that lasts over time... An intriguing "nibbled lips" effect.

Make-up Formula

Natural Mousse Eyeshadow

Weckerle Cosmetics
United States

Product description

A natural mousse eyeshadow, enriched with spirulina maxima extract to help promote healthy skin.

Product benefits

Spirulina Maxima extract helps promote healthy skin. A vegan, plant based alternative to petrolatum to provide soft, silky slip and skin feel.

Make-up Formula

Time To Love

Ancorotti
Italy

Product description

WHAT IS IT?

Heart-shaped powder blush.

WHAT DOES IT DO?

This little powder hearts give a luminous and pinkish finish to your cheeks.

Product benefits

For the mascara: refresher, regenerator, color booster, mascara-life extender

For the lashes: restructuring, emollient and hydrating

For the consumer: 98% of ingredients of natural origin, simplified ingredient list

For the planet: waste reduction, low environmental impact.

Skin Care Formula

Silky Blue Mattifying Gel Primer

B. Kolormakeup
& Skincare S.p.A.
Italy

Product description

Silky Blue offers a solution to the needs of a society overrun by stress and the issues that come with it. It actually gives the face a new perspective, smoothing those little irregularities that tell our personal story and providing relief and a smoothed effect, ironing out signs of aging. Its silky texture is made even more lovely and appealing by a silicone-like finish achieved with polymers that - despite there being no actual silicones in the formula - have managed to emulate their texture.

Product benefits

Silky Blue is ideal for giving skin a healthier, more attractive appearance. It is ideal for correcting the dull complexion often associated with a tired face and giving makeup something to cling to. Applying Silky Blue to the face creates an excellent silky base for makeup to attach to, ensuring it stays put as you tackle the day: the result will be smoother skin, a more even complexion and day-long makeup wear. You'll see the difference!

Skin Care Formula

Gotu Kola & Brahmakamal Ayurvedic Facial Rasayan

Om & Brahma Inc
Canada

Product description

A powerful combination of Ayurvedic active ingredients to help fight the look of aging, dullness, and dark spots, while instantly increasing brightness, radiance, and luminosity.

Product benefits

Ayurvedic Blend of highly potent ingredients Like gota kola & Brahmakamal reduce fine lines and stimulate collagen. Sacred Lotus extract offers a path breaking approach to restricting the formation of wrinkles.

Skin Care Formula

Sakura

Toly
Malta

Product description

The product contains, fermented active, is a process that generates beneficial elements from microorganisms. Yeast breaks the active's molecular structure in smaller particles, rich nutrients, antioxidants and mineral salts that are rapidly absorbed by the skin. This makes the formula become more effective and improves the beauty results. There is also oligopeptide, it's used for anti-aging products, the the aim of stimulating the proliferation of elastin, collagen and hyaluronic acid. Hyaluronic acid is indispensable molecule to prevent the aging's signs, fights tiredness and dehydration. It strengthens the skin's outer layer and acts

as a barrier against external agents. And Sakura contains as well a vitamin that belongs to group B, useful to combat the aging's effect and skin exhaustion. This ingredient is Fermented folic acid.

Product benefits

An essence of liquid beauty, created to give cellular revitalization, maximum hydration, brightness and skin's perfection. Its light texture enriched with precious petals and Orchid extract, allows rapid absorption with immediate beauty results.

Skin Care Formula

Pure Sun Protector SPF 30

B. Kolormakeup
& Skincare S.p.A.
Italy

Product description

Aware of the possible risks associated with too much sun exposure, such people demand entirely safe and effective products made using cutting-edge technologies and ingredients. Designed to cater to their demands, Puresun is a captivating two-phase product featuring skilfully selected water-soluble and fat-soluble sun filters packed into a single product without affecting the crystalline transparency of the two phases. Practical, safe, transparent!

Product benefits

This is a two-phase product that you need to shake prior to application to mix the two phases. The top phase protects skin, while the cobalt blue bottom phase moisturizes skin, providing freshness and protecting cells against oxidative damage induced by UVA and UVB light and the whole spectrum of visible light. Application is super quick: simply spray the product over your skin and massage in for a few seconds. It absorbs fast, leaving skin dry and not at all sticky.

Verdant

Berry Global
Unites States

Product description

The Verdant brand offers a full line of bottles, tubes, jars and closures with post-consumer resin content ranging from 25% to 100%. Stock and custom product lines are available in PET, HDPE, and PP resins, color-matched to customers' preferences. Our leading processes, coupled with the latest materials and product technologies, allow us to maximize PCR content while maintaining the look, feel and performance that customers demand. By offering a comprehensive line of PCR packages, including closures, Verdant helps manufacturers meet sustainability goals without sacrificing performance or beauty.

Product benefits

By using recycled content, Verdant reduces the amount of virgin resin in a package by 25% to 100%. Brands can easily meet their sustainability goals through Verdant's full product line composed of bottles, tube, jars, plus complementary closures, all with PCR.

Sustainability

Eco Baralan

Baralan
Unites States

Product description

Baralan presents a new line of bioplastic items produced by a biopolymer. This Biopolymer is made by a combination of natural fibres and waste from a specific manufacturing process. Baralan is able to use this Biopolymer to produce certain standard items with injection moulding technology. The items are produced in the Group's manufacturing plant, Labor Plast, and presented in 4 product categories: sticks, jars and compacts, overcaps/overpumps and screw caps – the best accessories also for Baralan's glass bottles and jars.

Product benefits

This new raw material combines the processing capabilities of thermoplastic materials with properties of renewable resources and natural materials. The Biopolymer is 100% natural and its main characteristics are: recyclable and biodegradable. This Biopolymer can be used with existing Baralan moulds and has flexible applicability in manufacturing.

Sustainability

Skin Linen

Toly
Malta

Product description

100% pure Lenzing Viscose is saturated with hydrating essence encapsulated in a compact plastic capsule. Enriched with Rosa Canina and Achillea extracts formula desensitizes the skin whilst providing refreshing and purifying function.

The extracts of Calendula and of Hamamelis complete the formula, with decongestant function and delicate astringent action.

Product benefits

The gentle lotion is specifically designed to restore hydrolipidic balance of the skin, soothing tired and lack-luster skin. The result is a fresh, uniformly soft and protected skin.

Sustainability

Refill Collection

Premi Spa
Italy

Product description

Premi offers a complete refillable packaging: two different kind of cups, mono and double, ideal for skincare and make up products: day and night cream, specific treatment, mask, scrub, mousse foundation, primer, concealer, highlighter, cream to powder foundation. They match with Premi luxury jars collection and are ideal for high-end refillable packaging. This is an ecofriendly way to help the environment thanks to the less production of packaging, because after the usage the consumer will throw only the cups (made of green PP) and they can have a glass packaging for years thanks to its long life.

Product benefits

The Refill Collection is the perfect solution to combine luxury and sustainability in the same pack. Brands can offer an ECO-CHIC beauty product getting a new luxurious and fabulous look for them. Our glass jars are the perfect choice for recyclable, sustainable, stylish and beauty packaging. The ideal solution to create a win-win situation for all parties involved: the brand can offer a sustainable product, that is mandatory nowadays as consumers increasingly demand products and packaging with sustainable profiles. Consumers can continue to take care of themselves and at the same time of their planet.
