Anubis Cosmetics Group Anubismed Biotech Hair Renewing Cocktail

Product description

New Cocktail based on Native Whartonide®, which is a biomaterial rich in growth factors that capture and promote fibroblasts, and contains a mixture of pure Glycosaminoglycans of natural origin obtained by biotechnology, as well as Hyaluronic Acid. Enhanced with Baicapil®, an active ingredient that stimulates hair growth, increases its density, and reduces its loss.

Claims & Benefits

Increased follicular density in cm² (+8,5%)
Decrease in hair loss (Pull test) (-79,9%)
Increase of the diameter of the hair shaft in mm (+67,3%)
Significant increase in the overall number of cells, thickening, and growth of the hair follicle.

Hair Product

Gama Srl iQ 2

Product description

iQ2, the next-gen evolution of the groundbreaking iQ Perfetto, fitted with various innovations. The new intelligent brushless motor and Venturi Effect reduce drying time without using extra power. The only dryer with Turbo Function, increases potency from 110,000rpm to 120,000rpm/30sec. The antibacterial OXYACTIVE Tech easy to remove washable micro-perforated filters ensure greater engine resilience&hair health. It comes with accessories with magnetic coupling and mechanical hook. The patented Venturi nozzle creates a homogeneous air-flow, for fine or damaged hair. The nozzle's double-layer design's air cushion prevents overheating. The only dryer with 'Standby Technology',

automatically deactivated when placed on the Smart Pad.

Claims & Benefits

The perfect balance between weight&performance, with various innovations. The intelligent brushless motor and Venturi effect reduce drying time without using extra power. The only with Turbo function, increases potency from 110,000rpm to 120,000rpm/30sec. The easy to remove washable micro-perforated filters ensure greater engine resilience& hair health. It comes with accessories with magnetic coupling and mechanical hook. The patented Venturi nozzle creates a homogeneous air-flow, for those with fine or damaged hair. The nozzle's double-layer design's air cushion prevents overheating. And it is the only with 'Standby Technology', its automatically deactivated when placed on the Smart Pad. Oxy-Active Tech, is a powerful antibacterial.

Hair Product

H.S.A. Hair Styling Applications S.p.a
Hair Reborn Elixir

Product description

Hair Reborn Elixir is a vegan friendly spray that preserves and protects the hair structure, by preventing it from damages caused by chemical and mechanical treatments. It is based on a “2 power technology”, resulting from a blend of fruit acids, mineral salts and fermented green coffee. To be applied before the chemical treatment in salons services. If part of a hair care routine, to be applied after shampooing.

Claims & Benefits

Multifunctional: can be used either as a pre-chemical treatment or within a hair care routine after shampooing. Vegan friendly: aligned with the increasingly popular trend of a “clean beauty approach” Repair and protection: it is the most powerful solution to counteract hair damages 2 power technology: it bestows a purifying, hydrating and conditioning action and makes the hair shiny and healthy.

Hair Product

Viridi Unit Sa Dry Elixir

Product description

Ultimate dry oil enriched with 100% pure Biotech Cbd®, organic Cannabis Sativa oil and a combination of four precious oils of natural origin. Revitalizing, moisturizing, soothing, it protects the hair and scalp against external aggressions such as pollution, oxidative stress and UV rays. Dry Elixir provides nutrition, shine and radiance. Its silky, ultra-fluid texture penetrates very quickly.

Claims & Benefits

The 100% pure Biotech Cbd® protects the hair with its powerful antioxidant action. It restructures the hair fiber and stops the oxidation process. Organic Cannabis Sativa oil is full of anti-pollution active ingredients, amino acids, nutritive fatty acids, vitamins and minerals, known to improve hair health. It also contains gamma linolenic acid which promotes hair growth. Jojoba Oil protects hair from the sun's harmful effects. Sacha Inchi Oil stimulates the regeneration of keratin. Sweet Almond Oil and Camellia Seed Oil moisturizes, while restoring their strength and radiance. Apricot Kernel Oil strengthens and detoxifies the scalp and brings vitality.

Nail Mist

Product description

The First Perfume for hands and nails in six fragrances genderless (Talc, Argan, Leather, Neroli & Rose, Magnolia, ylan ylang) All Clarissa Nail Mist perfumes are enriched with keratin, panthenol and bamboo extract Keratin is the substance of which the nails are composed, a fibrous protein consisting of amino acids, vitamins and trace elements, which strengthen, protect, repair damaged, flaking and weakened parts. Panthenol improves the barrier function of the skin, improving its elasticity and helping in the formation of new healthy cells.

Bamboo extract is an emollient that softens and smoothes the skin.

Claims & Benefits

The perfume dedicated to hands and nails has been specially designed to give moments of well-being, often it happens to stay all day away from home and the continuous use of sanitizing gels or liquid soaps that are in the bathrooms, do not leave the hands hydrated and perfumed, often the cream is not the ideal and above all comfortable solution, Nail Mist with its intoxicating fragrances, its nourishing composition and innovative packaging, for backpack or handbag, gives the user comfort, utility and nourishment for hands and nails.

Make-Up & Nail Product

BMA SRL Cromya Nude Collection

Product description

Cromya Nude Collection is the selection of 4 shades of nude for the treatment of the lips. the collection is presented in a precious box containing the 4 shades of pigments. Nude 1 is a very natural light pink color with warm undertones, suitable for all mucous membranes. Nude 2 is a nude color with a warm undertone, excellent for neutralizing cold mucous suitable for all lips colour. The nude 3 is a colder pink shade but with a warm undertone and therefore suitable for all mucous membranes. The nude 4 is a biscuit color, the most requested, it gives a very contemporary nude effect. With warm undertones it can be used on all mucous membranes. Each ink is contained in its own 10 ml pack strictly airless: a rarity in the world of permanent make up but strongly chosen by my alchemy in

accordance with the vision of the premium product that wants professional products to preserve their characteristics intact at every treatment to avoid contamination of the product itself, to keep the pack clean and for a more controlled dosage.

Claims & Benefits

The nude-toned palette was created to recreate even in the field of permanent make-up what until now was the prerogative of make-up: having lips defined and cared for in natural tones: having lips defined and in natural tones: the possible uses are not limited to color choices at the customer's choice but the 4 nudes shades allow the reconstruction treatments of the labial mucous when this is damaged by various factors such as: scars, pigmentation discolorations due to herpes, spots ... and allows to illuminate dull or gray colored mucous membranes or extremely pale mucous membranes in the most natural way possible.

Salon & Spa

Glamlac LLC

Lumisenses Led Eyelash Extension System

Product description

Lumisenses Led eyelash extensions system is a revolution in eyelash extensions, where Led visible light is needed to cure the glue. The result is lasting and lightweight. Glue vapors are no longer of the same intensity as quick-drying glue. The glue cures in 5 seconds with Lumisenses Pro Device. A thin layer of glue ensures fast and maximum adhesion and a non-sticky result. Eyelashes never stick together again! This fastens lash technicians work significantly.

Claims & Benefits

The procedure for eyelash extensions application requires max. 2 drops of glue. The glue no longer dries on the glue base as fast as it needs Led light to cure. You no longer have to worry about the temperature and humidity in the room. The glue has a low level of odor and vapors. It does not irritate the eyes because the glue cures immediately and the glue vapors do not activate even after taking a shower. Glue can be removed with Lumisenses Glue Remover.

Salon & Spa

Mandy Skin Mandy IPL 2.0

Product description

Permanent hair removal at home. Mandy IPL 2.0 makes the hair grow out slower, thinner and less after each treatment until you are fully rid of the hair. Say goodbye to ingrown hairs and pain caused by razors and waxing! Mandy IPL 2.0 uses a safe, well-proven, IPL (Intense Pulsed Light) technology. In its automatic mode, skin tone sensors on the device read what intensity level suits your skin best, which allows you to safely treat all body parts. The device works efficiently with visible results after only 4 sessions, the final result after 12 sessions.

Claims & Benefits

Effective: Removes irritating hair growth with visible result after only 4 sessions, the final result after 12 sessions. **Safe to use:** Well-proven IPL (Intense Pulsed Light) technology. Same method as used by professionals. **Swedish Quality:** Designed in Sweden. **Attention to Detail:** Textile cable adorned with an aluminum detail. **Unique & Sustainable Packaging:** 100% Recyclable, Renewable, and Bio-degradable box made from sugarcane & bamboo pulp. Packaging serves as a stand for the device, adding value for the user during the entire products lifecycle. **Affordable:** Competitive price, making high-quality IPL treatments accessible to more people.

Salon & Spa

Rhea Cosmetics pHSHAPE

Product description

pHSHAPE is a cosmetic carboxytherapy treatment that stimulates cutaneous pH to create a double acidic stimulation that delivers oxygen to reactivate body tissues' metabolic functions and reshape the body. Three phases for a targeted action and morpho-restructuring effect. Phase 1) Alkaline Cream: with high alkalinity that creates a peak of basicity of the pH once applied on the skin. Phase 2) Acidic Lotion: the application of an acidic pH lotion creates an initial "carboxytherapy-like" reaction. Phase 3) Acidic+ Mousse: a strong acidic mousse provides a

second acidifying wave on the skin, lowering the pH even further.

Claims & Benefits

pHSHAPE is a stimulating cosmetic carboxytherapy treatment for deep oxygenation of the skin, resulting in a metabolic reactivation of the body tissues. During this treatment all the body areas where adipose accumulation and atony occurs, will be treated in a targeted way, including legs, buttocks, abdomen and arms. The reactivation of circulation boosts the oxygenation of the skin as an effect linked to CO2 exposure, so the tissues' vitality and energy are restored, for an immediately drained, toned and reshaped body.

Skin & Personal Care Product

Imperial Bioscience Ltd. Luna Microcare Flawless

Product description

Acne vulgaris may cause severe psychological problems and disfiguring scars, and it has a considerable impact on patients' quality of life. Luna Microcare Flawless targets multiple pathological processes, including the production of human sebum that clogs hair follicles, disturbed keratinization within the follicle, colonization of Propionibacterium acnes and inflammatory mediators as a part of the comprehensive and balanced approach. FLAWLESS involves a few humble steps: wiping the targeted area

with an ingredient-loaded Cleaning Swab and applying easy-to-use Microneedle Patches. It helps remove and prevent the re-occurrence of acne, leaving your skin feeling smooth, fresh, and restored.

Claims & Benefits

Clinical studies have shown dramatic improvements in the reduction of acne with other improvements, including hydration and complexation. Clinical Results are in press at Journal of Cosmetic Dermatology. Claims and Benefits of the Flawless are as follows; 1. Visibly reduces blemishes 2. Balances sebum level 3. Adjuvant in reducing skin redness 4. Improves hydration 5. Nourishes and strengthens.

Skin & Personal Care Product

Kocostar By Firstmarket Co.,Ltd.
Kocostar Sunscreen Capsule Mask
(50 Capsules)

Product description

Portable, convenient, and effective SPF50+ PA+++ sunscreen that protects the skin from harmful UV rays during daily activities or holiday travels. Eco-friendly and cruelty-free. And also extremely hygienic.

*Capsules are made with botanicals and biodegradable.

Claims & Benefits

Since Kocostar Sunscreen Capsule Mask is a hybrid, it applies smoothly and absorbs quickly to block UV rays immediately. At the same time, it allows minimized irritation and no white cast — great to use with makeup! Moreover, we added botanicals that soothe and help the skin to remain moist. As a SPF50+ PA+++ sunscreen, it blocks both UVB (causes sunburn) and UVA (causes skin aging) effectively. It's perfect for daily use, whether you are out for a short walk or playing at the beach during high noon. And also extremely hygienic.

Skin & Personal Care Product

Skin Minute

Metabolic Serum Perfect
Immuno-cell

Product description

The Metabolic Serum Perfect Immuno-Cell is the essential to protect and boost your skin against environmental aggressions. Its formula, composed of 97% natural ingredients, stimulates the skin's immune system to strengthen its protective barrier. Fights against the signs of aging and offer a more radiant and luminous complexion with each application. Its light formula and gentle fragrance are suitable for all skin types. The Metabolic Serum Perfect Immuno-Cell regulates and preserves natural ph which stabilizes your skin's defense

barrier. Morning and evening, apply to cleansed skin before your cream.

Claims & Benefits

Its composition based on Vitamin D-Like and Botanical Complex, known for its soothing and softening properties, helps prevent the appearance and reduce the signs of aging. It also helps fight against oxidative stress responsible for premature aging of the skin and gives an even tone and radiance to the skin. The formula also contains pomegranate skin extract that acts as a metabolic regulator. Your skin is protected from environmental pollutions, climate variation and stress by increasing the resistance of the barrier.

Skin & Personal Care Product

Wellfully Sa Réduit Boost

Product description

Réduit Boost is a smart skincare device that amplifies the effects of traditional skincare products; serums, creams, and lotions. Boost does this by using diamagnetics to provide better absorption and deeper penetration of active ingredients in these products, ensuring far better skincare results. In addition, using Led light therapy, Boost provides a personalized treatment for you and your skin as well, based on your skin type, specific skin conditions, type of product you are using, and the climate you live in.

Claims & Benefits

Boost is universally compatible, designed to amplify virtually all traditional skincare products; serums, creams and lotions. The 30-second treatments ensure better absorption and deeper penetration of active ingredients in these products, for up to 5x better results. In addition, aided by Led light technology, its personalization provides tailored treatment made just for you and your skin, based on your skin type, specific skin conditions and climate, targeting everything from dull skin, fine lines, wrinkles, uneven skin, and acne. The alternating vibrations provide an extremely enjoyable and relaxing face massage.
